

# Resources

The following are examples of typical Resources a risk subject may need in order to delivery its Targets:

- Financial resources (Cash, Loans, Working Capital)
- Real Estate resources (Buildings, Land)
- Equipment resources (Machines, Tools, Computers)
- Resources from Authorities (Government Permits, Licences, Grants, Incentives)
- Knowledge resources (Technology, Licenses, Experience)
- Good Will resources (Reputation, Brands, Intellectual Property)
- Utility resources (Water, Consumable Chemicals, Waste removal)
- Employee Resources (Permanent and Contractual)
- Capability Resources (Skills, Competencies, Experience)
- Systems Resources (Accounting/Payments/Invoicing/IT/HR)
- Energy Resources (Oil, Gas, Electricity and other sources of Fuel)
- Raw Material Resources (Manufacturing/Service Consumables)
